### **Examination Regulations (*Extracted from 2021 PSLE Instructions for Candidates*): For Strict Compliance**

#### **FOR ALL PAPERS**

- The duration of each examination paper includes the time for reading the questions, writing and/or shading your answers.
- **Use a 2B pencil to shade answers on the Optical Answer Sheet (OAS). Shade the oval completely and firmly.** Not doing so may result in unclear answers. To change answers, erase the shaded oval completely using a soft eraser.
- For questions in the answer booklet, **write the answers clearly in blue/black ballpoint pen with 0.5mm tip size.** If you need to change your answers, cross them out and re-write the answers. Pencils should not be used as the responses may appear too faint for marking.
- **Do not use correction fluid / tape** in the examinations as it may affect the legibility of the answers. There are instances where answers were left incomplete after the correction fluid / tape had been applied. Correction fluid / tape may also damage the answer scripts (e.g. covering other parts of the answers or the pages may stick together).
- **Stop writing and put down your pen immediately** when told to do so by the invigilator.

If you cheat, attempt to cheat or assist in cheating, misbehave or do not follow the examination regulations during the examination, you may:

- be prohibited from taking the examination
- be expelled from the examination venue
